HOW TO MAKE WHEAT PASTE

Ingredients:

White Flour
Water
Sugar
Salt
Sealable Container

Step One:

Bring 1 cup of water to boil

Step Two:

In a separate bowl, mix 3 tablespoons of flour into $\frac{1}{4}$ cup of cold water removing any lumps

Step Three:

Stir flour mixture into boiling water

Step Four:

Bring mixture to a boil, stirring continuously for 2-3 minutes

Step Five:

Remove from heat and add 3 spoonfuls of sugar and 1 spoonful of salt stirring until dissolved
Optional - add wood glue or white glue for extra strength

Step Six:

Let cool and store in a sealable container. For longer shelf life, store in the refrigerator

Step Seven:

Clean dishes, brushes, and surfaces before glue dries

HOW TO WHEAT PASTE

Step One:

Wet wall with roller or brush

Step Two:

Place paper

Step Three:

Coat paper with roller or brush
