

# Create Your Dream Colorado

Saturday, December 9 | 12PM

**Denver Public Library | Hadley Branch | Community Room**

Bring your dream Colorado to life and explore different ways to combine code with everyday materials! Maybe you dream about riding a dragon to school? Or that you could snowboard through downtown? In this workshop you'll create interactive scenes or stories inspired by your imagination using an app called Octostudio.

**No technology experience necessary!**

**Ideal for families with children ages 7-12. Younger siblings welcome!**
