All classes free and open to the public.

No registration required unless stated in description. No late entry.

Computer Basics: Email

Learn how to send and receive email, navigate your inbox, and practice downloading and attaching files.

Computer Basics: Getting Started

Learn the basics of using a computer and practice using a mouse. No computer experience required.

Computer Basics: Internet

Learn how to use a browser to access the internet and use Google to find information on the internet.

Computer Basics: Saving & Finding Files

Learn how your computer is organized, including files and folders, and discover how to find what you're looking for.

Create a Logo

Create your own digital illustrations and designs. Learn the basics of Inkscape, a free vector graphics program, and create an example logo you can use in print or online.

Design a Pencil Cup in 3D

Make your own back-to-school decor. Use free 3D modeling software (tinkercad.com) to create a personalized pencil cup. After creating your design, your 3D model can be printed in about 1-2 weeks.

DPL Photographers Guild

The DPL Photographers Guild meets every third Tuesday to discuss photography, cameras, and more. Each session features a different lesson as well as time to share your images, ask questions, and give and receive feedback.

Drop In Tech Help

If you have questions about navigating the web, social networks, your phone or tablet, eBooks, and more, drop by to get help and learn how to use tech more effectively.

Fix & Mend Meetup

Bring your faulty lamp, torn pants, or other broken objects to this drop-in repair lab where we will work together to fix your items. This is a collaborative, social gathering: tinkerers are welcome to join.

Girls Who DIY

Maker time for girls (Ages 8-18)! Projects include everything STEAM: coding, robotics, web design, 3D printing, sewing, soldering, and more.

HTML Basics

Build web pages from scratch with HTML. Learn what HTML is and use it to format text, insert images and create links.

ideaLAB Tour

ideaLAB is the library's makerspace. Visit the ideaLAB to check out our equipment and software and learn how you can make videos, games, music, art, crafts, and more.

Microsoft Excel: Basics

Excel spreadsheets allow you to easily store, organize and modify data. Learn the basics of Excel (such as inserting text, basic formulas, AutoFill and more) by creating a personal budget.

Microsoft Word: Basics

Learn how to create and edit a document with Microsoft Word. You'll learn basic formatting options like how to bold text, adjust line spacing and change the page alignment.

Microsoft Word: Intermediate

Microsoft Word has many tools that make working on long documents a snap. Learn about styles, headers, footers, page numbers and tables. Basic Word skills required.

Microsoft Word: Resumes

Whether you already have a resume or need to start from scratch, learn how to use Microsoft Word to create a professional looking resume using basic and advanced formatting tools. Basic Word skills required.

Python 1 - 4

Learn basic Python programming. You'll need intermediate computer skills, but no previous programming experience required.

Class 1: Variables, Data Types and Expressions

Class 2: Format Operators, Input and Conditions

Class 3: Functions and Loops

Class 4: Classes, Objects and Modules

Search Engine Optimization Basics

Learn about Search Engine Optimization (SEO). Debunk SEO myths, and learn basic tools and tips to help improve your website's online presence.

Sewing Circle

Bring your sewing project and join other crafters in conversation.

Tech Career Talk: Software Developer

Explore careers in technology. Hear from a local software developer. The informal presentation will be followed by audience Q&A.

Technology for Presentations: Beyond PowerPoint

Learn how to improve your presentation while using PowerPoint and other presentation software. Explore best practices for designing and delivering your presentation and get hands-on experience.

Website Building Basics

Get hands-on experience learning what you need to create your very own website. You will explore three different website building platforms: Weebly, Wix and WordPress. No coding experience necessary.

WordPress Happiness Hour

Get the answers to your WordPress questions in an open forum hosted by WordPress experts.

Work Online with Google Drive

Learn how to create documents, save your files online and collaborate with others on Google Drive. Email address required.

YouTube Basics

YouTube is the most popular online video streaming service in the world. Come learn about channels, subscriptions, playlists, and uploading your own videos to YouTube.

CAN'T MAKE IT TO CLASS? NEED EXTRA HELP?

Call us at 720.865.1706 or email ctc@denverlibrary.org to set up a one-on-one tech help appointment.

If you need sign language or CART Services, contact SignLanguageServices@denvergov.org with at least a three (3) business day notice. For other public accommodation requests / concerns related to a disability, please contact DisabilityAccess@denvergov.org.
